B. Quarterly MVP Recipients – John Connet, City Manager

Quarterly MVPs

July – September 2023

The Service Excellence Design Team voted on the 35 MVPs submitted and the following three received the highest votes.

**Greg Willis (Fire)**

While responding to a call to assist an elderly gentleman up, Lieutenant Willis noticed the gentleman had a device intended to assist the man in transitioning up and down scattered into pieces, awaiting assembly. Recognizing how this device would be an asset to the man, Lieutenant Willis took the time to assemble it for him, and ensure he understood how it functioned.

**Dillon Baker (Fire)**

"Chief Miller, I'm a city resident writing to express gratitude for Lt. Dillon Baker on your team. My smoke detectors went haywire a couple of weeks ago, and crews from the city came out to resolve the issue. I appreciated that. I called the city today to talk to someone to help me understand what happened so I could prevent it from happening in the future. I got a call back from Lt Baker who left me a message saying 'he'd love to talk to me about my smoke detectors'. LOVE TO TALK TO ME ABOUT MY SMOKE DETECTORS! Wow. Man-o-man, he was incredibly helpful. He walked me through a number of issues and when he discovered that I currently have no working smoke detectors at the house, he offered to come out to put one up. I promised to put up a smoke detector immediately. And I forgot to put it up. But, alas, five hours later Lt. Baker called to check on my smoke detector, And when I admitted that I hadn't followed through, he gave me 10 minutes and he'd be at my door. I put up the smoke detector."

Clay Tritt, Caleb Smathers & Tim Calderazzo (Water & Sewer / WTP)

On September 14 at 3 am, Tim Calderazzo, Water Treatment Plant, noticed an alarm at the Etowah tank site that the water level in the tank was dropping at an unexpected rate. Tim immediately called Clay Tritt, on-call for our facilities and tanks maintenance. Clay dispatched to Etowah shortly after three and called Caleb Smathers who was on emergency stand-by for line breaks.

While in route, Caleb was in communication with Clay who had found the leak. They discussed the locations of valves and, as Caleb arrived, he was able to help Clay finish closing the valves necessary to isolate the leak and stop the loss of water from the storage tank. The time was just before 5am.

Through their quick response, and expertise, these men worked together to identify, respond, travel, find, and isolate the leak within two hours. All during the predawn hours and unbeknownst to the public. Their actions certainly prevented the loss of water pressure to hundreds of our customers.

Brush
Collection
Pilot Program

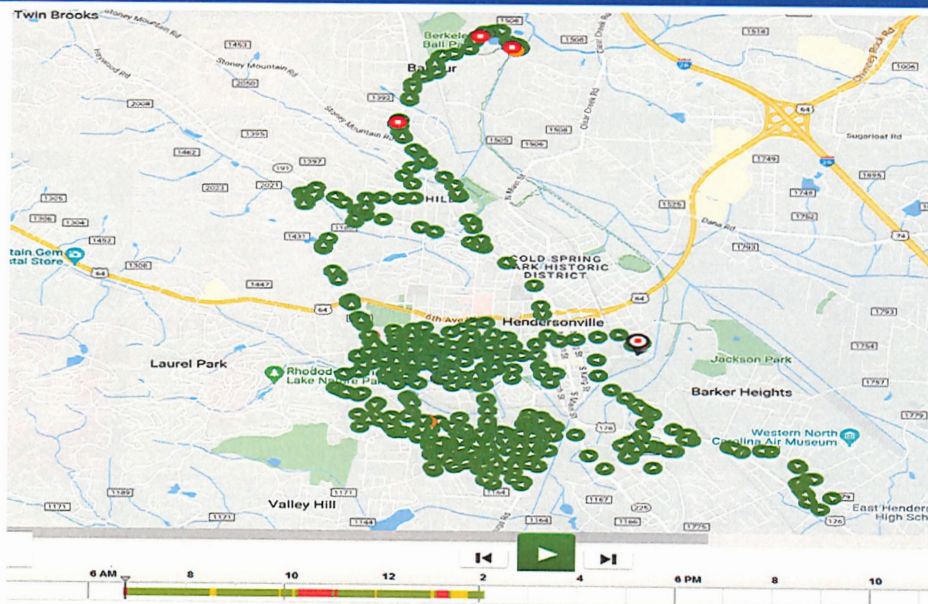

Reason

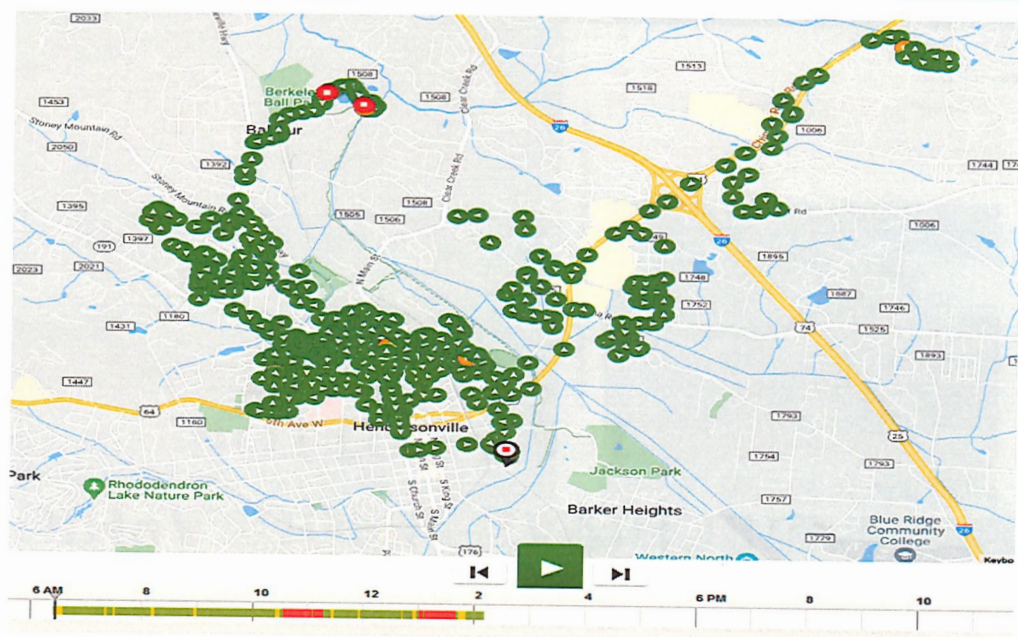

We are looking at altering our Brush pickup program to reduce fuel costs and operational expenses for environmental services. This will help reducing the department carbon footprint by reducing unnecessary emissions. It also will help with the staff shortage we have right now by freeing up a driver to fill in where needed.

Brush Collection

Brush Collection

Collection will still be every week.

Brush pile locations will be collected by the trash and recycling trucks as they run the route daily.

End of day when trash routes are done brush will start being collected.

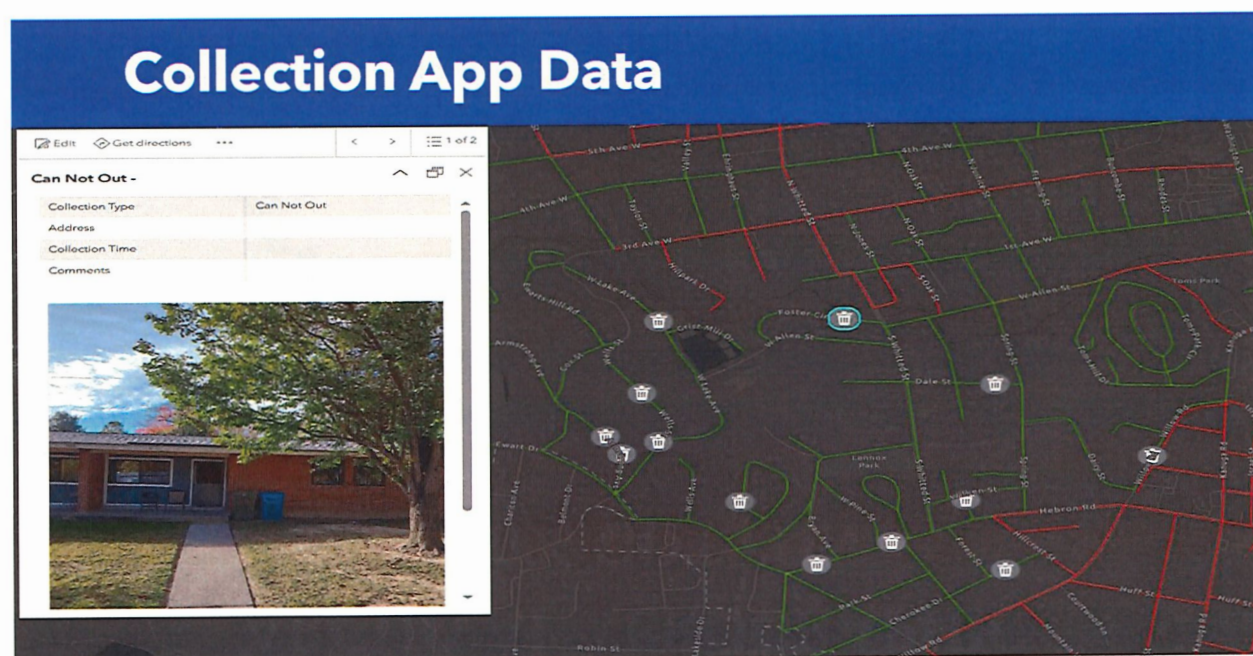

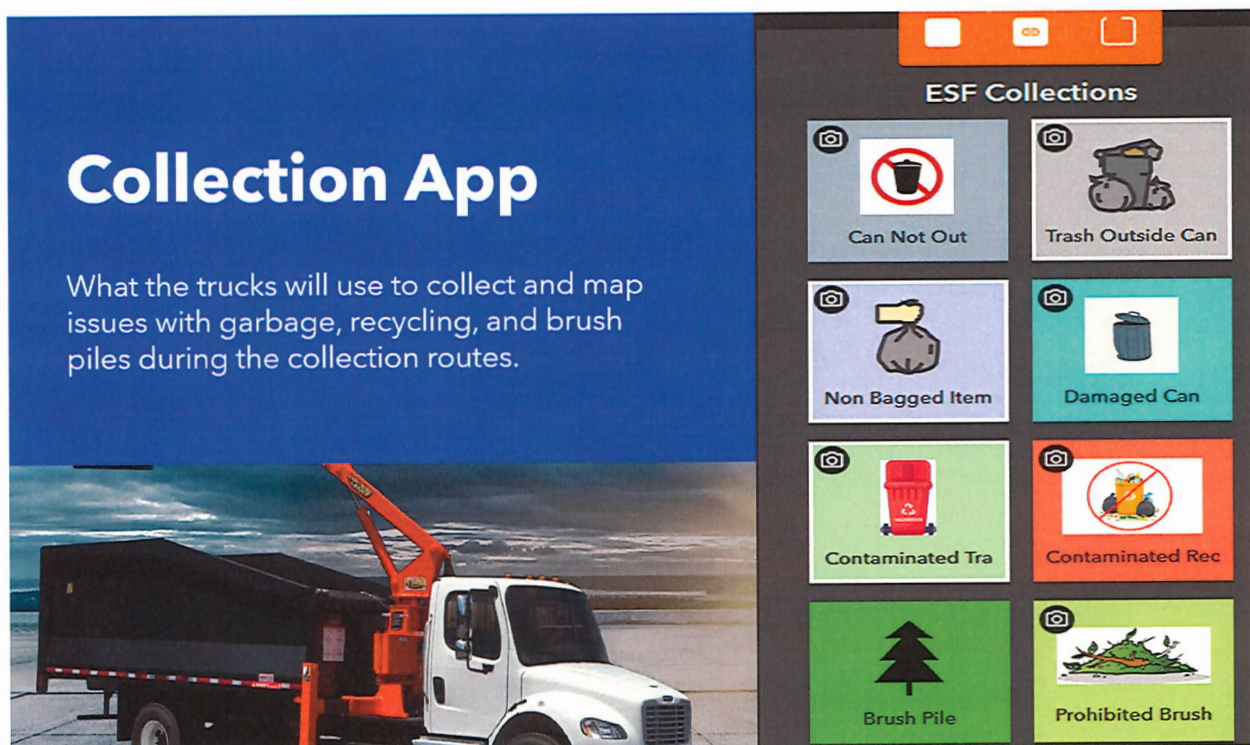

Residents should still place their brush at the curb on their collection day.

Residents can call in to have their brush pile placed on the collection map if needed.

This is something we can do right now that will not affect the service to residents but will have a great effect on our fuel usage and emissions.

The Sanitation route study that currently is being finalized and started will help show ways we can do the same to the rest of the collection fleet. To make sure the sanitation division meets the sustainability goals in the future.

Mr. Miller thanked Council for the confidence and pledged that he will not run for this seat, or any other seat, when the time is up. To staff, he is excited to work with them again. He also made a commitment to civility.

7. PUBLIC HEARINGS

A. Subdivision Text Amendment: Street Design Updates (P23-78-STA) – *Tyler Morrow, Planner II*

City staff is proposing to align the City's public street standards for subdivisions with standards set forth by the NCDOT for this region. It has been discovered that some of City's current subdivision standards do not take into account the topography of the region and are better suited for piedmont or coastal areas. Staff is recommending that the street design standards for subdivisions be a hybrid of NCDOT's requirements for rolling and

mountainous terrain. It is staffs hope that by making these corrections, it will eliminate the need for additional grading/land disturbance and will better align new public street design with the existing conditions found around the City.

The public hearing was opened at 6:52 p.m.

Lynne Williams spoke about the safety and use signage and traffic calming measures. Also, her concern is the floodplains and steep slopes because we are allowing exceptions. On Chadwick Avenue where she lives, they do not consider it a “minor thoroughfare” and do not want to go in that direction.

The public hearing was closed at 6:56 p.m.

Council Member Lyndsey Simpson moved that City Council adopt an ordinance amending the official City of Hendersonville Subdivision Ordinance, Section 4.03. Streets by revising subsection C. Street configuration, based on the following:

1. The petition is found to be consistent with the City of Hendersonville 2030 Comprehensive Plan based on the information from the staff analysis and the public hearing, and because:

The petition aligns with the Comprehensive Plan’s Strategy to Implement local policies and practices that complement and expand upon the State’s access management standards (Strategy TC-3.3) and because it incorporates some of the complete street goals outlined in figure 7.3a.

2. We [find] this petition, in conjunction with the recommendations presented by staff, to be reasonable and in the public interest based on the information from the staff analysis and the public hearing, and because:

- 1. The proposed text amendment creates flexibility for subdivision developers to work with the existing terrain and slope of the property when designing their development and public street system.*
- 2. The proposed text amendment has the potential to reduce the amount of land disturbed within a proposed subdivision which could decrease environmental impacts.*
- 3. The proposed text amendment aligns the ordinance with existing local public street conditions and NCDOT standards.*

A unanimous vote of the Council followed. Motion carried.

- b. In cases where an existing street is depicted on the city's adopted policy guidance, but is not configured to the required width or cross section, the roadway shall be improved in accordance with the city's adopted policy guidance as part of the development.
2. **Street intersections.** Street intersections shall be configured in accordance with the following standards:

a. Not more than two streets shall intersect at any one point unless the city or NCDOT certifies that such an intersection can be constructed with no extraordinary danger to public safety.

b. Streets shall intersect at right angles to the maximum extent practicable, and no two streets shall intersect at less than 60 degrees.

c. Whenever possible, proposed intersections along one side of a street shall coincide with existing or proposed intersections on the opposite side of the street.

d. Where a street center line offset (jog) occurs at an intersection, the distance between centerlines of the intersecting streets shall be not less than 125 feet.

e. Except when no other alternative is practicable or legally possible, no two streets may intersect with any other street on the same side at a distance of less than 200 feet measured from centerline to centerline of the intersecting street. - g.

In commercial developments the city may assign traffic control to thru traffic within 500 feet of the point of access to the public right-of-way.
3. Development entry points

a.

Unless exempted in accordance with subsection (d) below, all subdivisions shall provide streets from the development to the street system outside the development in accordance with Table 4.03.C.3, Required Points of Access:

TABLE 4.03.C.3: REQUIRED POINTS OF ACCESS [1]		
TYPE OF DEVELOPMENT	DEVELOPMENT SIZE	MINIMUM NUMBER OF VEHICULAR ACCESS POINTS [2]
Residential and Mixed-Use Development [3]	30 or fewer lots	1
	31 or more	2
Non-residential Development, other than Industrial [4]	Less than 5 acres or fewer than 10 lots	1
	More than 5 acres	2
NOTES:		
[1] Points of access shall refer to streets, not driveways.		
[2] Additional vehicular access points may be required where determined necessary by the city.		
[3] Multi-family or mixed-use developments of 100 dwelling units or more shall provide at least two points of access regardless of the number of lots.		
[4] The Fire Code may require a minimum of two points of access.		

- b.

Nothing in this section shall limit the total number of streets providing access to the street system outside a development, or exempt a development from meeting all applicable street connectivity standards.
- c.

Street stubs shall be credited as an access point when all ingress or egress to a development is only available from a single expressway, boulevard, or thoroughfare street.
- d.

Development shall be exempted from these standards if it is demonstrated the following conditions apply:

i.

A transportation impact analysis allows a deviation;

ii.

No other street access points can be located due to existing lot configurations, absence of connecting streets, environmental, or topographic constraints;

iii.

NCDOT will not authorize the required number of entrances; or

iv.

Alternative access can be provided in a manner acceptable to the city that is supported by a transportation impact analysis.

4. Turn lanes. Turn lanes for either or both left and right turns into a commercial or residential subdivision driveway may be necessary for safety when there are high roadway and/or turning volumes or traffic, when the roadway speeds are moderate or high, or where needed due to limited sight distance. When provided, turn lanes shall be configured in accordance with the following:

a.

The final determination for the need, location, and design of a turn lane is the responsibility of the NCDOT, or the city, as appropriate.

b.

Left and right turn lanes shall be constructed in accordance with NCDOT standards and specifications.

c.

Right-turn lanes shall be constructed entirely within the frontage of the property being served, since an adjacent development might subsequently require an entrance that would otherwise encroach into the turn lane.

d.

The NCDOT may require a undivided street to be widened when the median has an inadequate width for a left turn lane.

5. Deceleration lanes.

- a. Any use capable of generating more than 60 trips per peak hour, as estimated by using NCDOT guidelines or the Institute of Traffic Engineers Trip Generation Manual, shall provide at least one deceleration lane per street front in accordance with NCDOT standards when the use is located along an expressway or boulevard street.
 - b. Deviations from these requirements may only be authorized when the NCDOT indicates that a particular development design or technique can still achieve a satisfactory level of access control consistent with the objectives of this section.

 - c. All changes in grades for local streets and thoroughfares shall be connected by a vertical curve of a minimum length of ~~40~~ 20 times the algebraic difference in the percents of grade ("K" value). Stop conditions shall have a minimum "K" value of ~~14~~ 9 times the algebraic difference of the percents of grade. "K" values for arterials shall be per the AASHTO Geometric Design of Highways and Streets based on design speed.
 - d. The city manager may consider deviations from these standards based on topographic conditions or public safety concerns: for Local Streets when natural site slope exceeds 15%. Vertical curves with 10 times the algebraic difference in the percents of grade ("K" value) and stop conditions with 5 times the algebraic difference in the percents of grade ("K" value) may be permitted under this condition.

B. Request by Rotary Club of Hendersonville to Place American Flags on Main Street – Fritz Becker, Rotary Community Service Director.

Fritz Baker explained that the Hendersonville Rotary Club would like to make a conspicuous reminder on a recurring basis of some of the events, values and sacrifices our flag represents and to reinforce the idea that while no one has a monopoly on interpreting what we stand for as a country, our flag is a symbol of our status as the world's oldest democracy. Therefore they would like to deploy small American Flags as a reminder of our shared community values in raised flower beds along Main Street, one day at a time on the following days: Memorial Day, Fourth of July, Veteran's Day, Martin Luther King Jr. Day, Flag Day, Patriot's Day and Election Day.

Therefore, staff recommends that the City not install sewer to this small subdivision.

10. CITY MANAGER REPORT – John F. Connet, City Manager

City Manager Connet reminded Council that the contingency report is included in their packet. He also reminded Council that they have a special called city council meeting on November 20th. Normally, we would have our workshop on the 22nd, which is the day before Thanksgiving, but we moved it to Monday, the 20th at 4:00p.m. and it will be a joint meeting with the Planning Board to go over the Comprehensive Plan strategies and our consultant will be in town. I believe we will also be getting a check presented to us in the amount of \$14,000,000 or so for the bio solids project at the wastewater plant.

A. October 2023 Contingency Report – John Connet, City Manager

In accordance with North Carolina General Statute (NCGS) 159-13(b) it is required that all expenditures resulting from a contingency appropriation budget be reported to the governing board at its next regular meeting and recorded in the minutes.

NCGS 159-15 permits the Budget Officer (City Manager), to transfer budget from one appropriation to another within the same fund, provided any such transfers are reported to the Governing Board. The City of Hendersonville refers to transfers of budget from one appropriation to another within the same fund as a “budget adjustment”. City Council authorizes budget adjustments each year with the adoption of the annual budget ordinance (SECTION 4).

This agenda item serves to fulfill the reporting requirements of both NCGS 159-13(b) and 159-15 by providing City Council a summary of all amendments and adjustments occurring thus far in the fiscal year.

11. CITY COUNCIL COMMENTS

Lyndsey said that the put-put golf course is amazing and the lights are wonderful. She also went to two events: the groundbreaking for the Ecusta Trail and the turnout was really amazing and the dedication of the mural on the World of Clothing building which turned out really awesome and they were both wonderful.

Jennifer requested that a resolution be prepared to honor the Henderson County Sherriff’s VIP’s (Volunteers In Partnership) since they helped with the closure on 4th Avenue during trick or treat this year and it was really great and we got a lot of positive feedback and everyone felt safe with their kids. They have their annual dinner this Thursday night and they invited me to it and I would like to read this resolution that evening.

One of the biggest reasons that we had to ask our VIP’s is because of our Police Department mans all of Main Street and they were all so cooperative with the VIPs so thank you all.

Jeff Miller gave a reminder that from November 9th – 12th at the Veteran’s Healing Farm, the Vietnam Traveling Memorial Wall will be there and this is a big deal for so many of these Veteran’s. We take them to D.C. as often as we can to see the wall. A lot of them can’t make the trip so it comes to them, so please go by and support it.

12. ADJOURN

There being no further business, the meeting was adjourned at 7:53 p.m. upon unanimous assent of the Council.
